

Competition is what makes this country great. I made a CHOICE when I purchased XM Satellite Radio because I was dissatisfied with the programming and offerings of radio. Too many commercials, lack of variety and no control over what and when I listened to certain programming. XM's Instant Traffic & Weather is an additional choice offered to customers - traffic and weather updates when I WANT THEM. America is a DEMOCRACY. It is the HOME OF THE FREE AND THE BRAVE. Satellite radio is a CHOICE FOR CONSUMERS. Please do not curtail MY CHOICE of listening to traffic and weather updates WHEN I WANT THEM!  
Thank you for your consideration.
